

WILTON® DROP FORGED C-CLAMPS

Wilton Classic 400 Series C-Clamps are ideal for steel fabrication, industrial maintenance, and repair operations. Each C-Clamp is drop forged and features an ACME rolled spindle with Black Oxide Coating, replaceable Perma-Pads® and a v-grooved anvil for secure holding of all materials.

LEVER HOISTS

JET® JLH Series Lever Hoists incorporate safety, durability, and heavy duty construction for operation in severe industrial environments. Safety comes standard with features such as overload protection, which prevents the lever hoist from lifting or pulling damaging loads beyond its rated capacity. The JET® JLH Series is available in 1/4 ton to 9 ton capacities, with standard lifts of 5, 10, 15, and 20 feet (custom lifts available). Whether it's inverted, vertical, horizontal, or any other load angle, the JET® JLH lever hoist is the solution for your heavy-duty industrial needs.
