GROO-V[®]
TIP Multi-Purpose Drill Bit

TILE - METAL - PLASTIC - MARBLE - GRANITE - MASONRY

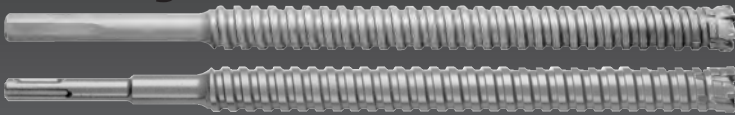

Percussion or rotary-only, the Groo-V tip makes holes in almost all materials. Engineered for drilling hard materials, the specialized, serrated carbide tip penetrates up to 50% faster than standard masonry bits.

Rotary Rebar Cutter

Instead of wasting time and money relocating holes due to concrete-embedded rebar, use a Relton Rotary Rebar Cutter to **drill directly through the rebar**. Rechuck a masonry bit once the rebar has been cut, and keep on drilling.
