

Our Commitment to Sustainability with Certifiably Green Denver

What is Certifiably Green Denver?

Certifiably Green Denver is a program managed by the Denver Climate Action, Sustainability, and Resiliency Group (CASR). It provides education and recognition to businesses for environmental achievement. The primary goal of the program is to increase participation and adoption of sustainable practices.

The State of Colorado has accepted AIS for a tax credit which allows us to provide a 30% discount at the time of purchase on all eligible electric lawnmowers, leaf blowers, snow blowers, and trimmers. We carry top requested brands in this equipment including STIHL, DeWalt, and Milwaukee.

Sustainability In Our Company Roots

From replacing all of our lighting to energy efficient LED's and then installing Solar Panels on our roof to draw power from the sun, AIS has been integrating sustainability into our company going back nearly 80 years. Our company began supplying materials to convert military aircraft parts for commercial airline usage and we've never stopped innovating when it comes to Sustainability. This is why the City of Denver has awarded us with the Certifiably Green Denver certification!

Repair Don't Replace - Be Sustainable!

AIS's Tool Repair Division is a factory certified repair shop for multiple brands including STIHL, Milwaukee, and Ridgid. Our tool repair technicians have a combined experience of over 80 years in the industry and offer free quotes and torque wrench calibration.

AIS Industrial's Commitment to Sustainability with Certifiably Green Denver

AIS Industrial & Construction Supply, a supplier of tools and materials, has taken significant steps towards sustainability in its Denver complex. As part of their participation in the **Certifiably Green Denver** sustainability program, sponsored by the City of Denver, the company has installed **new energy-efficient LED lighting** across all five of their buildings.

Moreover, in 2020, the company installed **233 solar panels** on their rooftops to promote energy efficiency and sustainability. With this new installation, they can now power **over 50,000 square feet** of warehouse space that stores more than 115,000 different products.

AIS Industrial & Construction Supply is committed to promoting sustainability in all aspects of their operations, including water conservation, efficient resource management, and alternative transportation options.
